Honeycomb Kraft Paper Packaging Rolls

An eco-conscious alternative to traditional bubble wrap, our Honeycomb Kraft Paper Packaging Rolls are engineered for both protection and presentation. Manufactured using our own high-quality recycled kraft paper, each roll is fully compostable and 100% recyclable—offering a sustainable solution for modern packaging needs.

The expandable honeycomb structure provides highly acceptable cushioning, ensuring your products are well-protected during transit. At the same time, it enhances the unboxing experience with a natural, premium aesthetic that resonates with environmentally conscious customers.

Lightweight, flexible, and plastic-free, this innovative packaging material is ideal for brands that prioritize both performance and planet.

Key Features:

- Plastic-free, recyclable & compostable
- Produced from our in-house kraft paper mill
- Expandable honeycomb 3D design for protection
- Lightweight & tear-resistant
- Custom sizes and branding available

Technical Specifications

- **Material:** high-quality Recycled Kraft Paper
